

Mission

To inform, involve, strengthen and increase the capacity and collective power of the nonprofit industry in Monterey County.

NAMC is an association of nonprofit organizations that work together because we believe:

- Well-run and effective nonprofit organizations are essential to society.
- Nonprofit organizations are key players in the economy of Monterey County.
- Nonprofits contribute to the overall economic well-being and the quality of life in the region.
- The public trust that nonprofit organizations have earned must be safeguarded.
- Advocacy and community education are important roles of the nonprofit industry.
- Healthy communities result from respectful and cooperative relationships among nonprofit organizations, government and businesses.

For the Common Good

Nonprofit organizations play a vital role in sustaining Monterey County's economic and social health. They span a wide variety of industries within the local economy – education, job-training, hospitals and health services, the arts, social services, religious and spiritual, housing, environmental protection, and youth development.

What distinguishes the nonprofit sector is not *how* it does what it does, but rather, *why*. While there is considerable diversity in the array of services and the perspective, nonprofit organizations share a common underlying purpose – to serve the public good.

Nonprofits help reduce the burden to taxpayers and improve the standard of living in the county by providing a myriad of services that are cost-effective alternatives to government-led programs. We are, indeed, working together to build a stronger community.
