Directory of Health & Human Services For South Monterey County

Fall 2017
Introduction

Monterey County Supervisor Simón Salinas originally convened a group of stakeholders in 2013 to identify services, barriers and service gaps to those seeking mental health and human service in South Monterey County. This group is now known as the South County Behavioral Health Subcommittee and has been working to bring improved health care services to South Monterey County residents through improved cooperation, coordination and collaboration among service providers. In addition to these achievements, this directory was created to help simplify access to services for residents and service providers.

All comments on how to improve this directory are welcomed. It is hoped that as the directory is used, agencies will help us to complete the information fields listed here by using the addition, change and correction form on page 87 and submitting it, as may be convenient by email, fax or telephone.

The CalFresh Program can add to your food budget to put healthy and nutritious food on the table. The program issues monthly electronic benefits that can be used to buy most foods at many markets and food stores. To get CalFresh benefits, households must meet certain criteria, including resource and income tests. Learn more.
